

[Validate](#)[Documentation](#)[An example](#)[About](#)[Privacy](#)

Validate an XML file

Read [here how to validate your XML files](#) (including referenced DTDs) online with just a few mouse clicks.

The file vehiculos.dtd is being referenced. Please copy it in here, so that the validation can continue:

```
<?xml version="1.0" encoding="UTF-8"?>

<!ELEMENT vehiculos (vehiculo+)>
<!ELEMENT vehiculo (marca,modelo,matricula,puertas,foto,color,tipo,precio,comentario)>
<!ELEMENT marca (#PCDATA)>
<!ELEMENT modelo (#PCDATA)>
<!ELEMENT matricula (#PCDATA)>
<!ELEMENT puertas (#PCDATA)>
<!ELEMENT foto (#PCDATA)>
<!ELEMENT color (#PCDATA)>
```

Or upload it:

Seleccionar archivo Ningún archivo seleccionado
